

29 April 1959

MEMORANDUM FOR: Assistant Director, CR

SUBJECT : Acceptance of Air Force Minicard Coding for
Intellofax Input

REFERENCE : Memorandum dated 7 April 1959 to AD/CR from Chief, DD
re same subject.

25X1A9a

25X1A9a 1. After concurrence by Chief, Machine Division, [REDACTED] advised
[REDACTED] that with his present T/O he would be able to handle this
project only on an overtime basis and that he did not believe he
could get his personnel to work such overtime.

25X1A9a

25X1A9a 2. However, after further discussions between Messrs. [REDACTED]
and [REDACTED] it was determined that the project could be handled by
one of the following alternatives:

a. The addition of 1 slot to the Machine Division T/O.

25X1A2g b. The elimination of MD projects which have low priority e.g.,
transfer of the [REDACTED] Project to DD/P.

c. Adoption of CODIS Area Classification Code and the ISC
modifiers presently used by the Air Force.

3. I feel very strongly that the approval of this project would be the
first step in the attainment of a compatible coding system between
AFCIN and CIA.

25X1A9a

[REDACTED]
Chief, Document Division

cc: Chief, Machine Division
Chief, Analysis Branch
Automation Development Group
